## WE COULDN'T SAY NO

### Giving Baxter a Second Chance

A long time rescuer who moved to the island of St. Croix reached out to us about helping a pup who was found lying motionless near a dump. A worker found his lifeless body and rushed him to a nearby shelter. He was so infested with parasites that he was severely anemic and required a blood transfusion. After receiving weeks of medical care and TLC in a loving foster home, he slowly gained his strength and made his way to Pet Rescue with help of two volunteers who happened to be visiting the island. This adorable little guy is the sweetest, most loving and playful pup who is now called Baxter. He is [available for adoption](#) on our website!

**A Senior Rescue**

Buddy was wandering the streets of rural West Virginia all alone going door to door, hoping someone would let him in. He must have been homeless for some time because he was skin and bones when our rescue partner took him in. After a visit to the vet and a holding period with much needed food and rest, this senior made his way to Pet Rescue. While his soulful eyes tell the story of the hardship he has endured, his wagging tail shows his appreciation for finally being cared for. Buddy is the sweetest dog with so much love to give. He doesn't ask for much... a cozy bed, some good food and lots of love. He would be a perfect choice for a senior looking for a loving companion. [Apply to adopt Buddy](#) on our website.

## SOMEWHERE OVER THE RAINBOW

Sometimes it takes a little longer to find the perfect *rainbow* but when you do, it makes the wait

worthwhile. A stunning green-eyed tabby was rescued from a feral cat colony back in April 2014 because a volunteer saw the potential in her. When she arrived, we named her Rainbow because of her colorful personality and she quickly established herself as the queen of her surroundings. Not one to shy away from any person or situation, you might say she was temperamental and didn't show very well. For the next 5+ years, Rainbow became a permanent fixture and even endured a move from our old facility to our current Kitty Cottage in Harrison. That was when her luck changed...

Our Kitty Cottage is a bright, warm and welcoming place where the public can visit and interact with our cats. Volunteers host Open Houses three times a week, and have cultivated many new visitors, volunteers and adopters... including Gerta, a special volunteer who fell in love with Rainbow and adopted her.

After 1,977 days or 5 years and 5 months later, at the age of 7+ years, Rainbow is finally in a forever home, where she quickly made herself very comfortable. We love happy endings!
